

DUNNE SENDS SPECIAL MESSAGES TO ASSEMBLY

ATTACKS LOBBYISTS—URGES FOOT AND MOUTH APPROPRIATION

Asks Laws Requiring Registration of Lobbyists—Requests That an Exception be Made of State Officers, Department, Heads and Persons Invited by Either House or Any Committees.

Springfield, Ill., March 2.—(En- deavoring to strike at what he terms "the insidious influence of the corrupt lobbyist," Governor Dunne today sent to the legislature a special message urging the passage of a bill which would require all lobbyists to register their names and addresses with the secretary of state, and to certify in writing the measures they are lobbying for, who employs them, and what compensation they receive for such lobbying.

Urges Emergency Appropriation.
A second message sent to the legislature today by the governor urged the immediate passage of an emergency appropriation to relieve the financial distress of stock raisers resulting from the slaughter of animals because of the foot and mouth disease.

Laws requiring the registration of lobbyists, such as asked by Governor Dunne, already are on the statute books of several states, notably Ohio, where the violation of the lobbyist law is a penitentiary offense.

Governor Dunne's message recommended that "no one not a member of this general assembly should be permitted to the floor of either house, or the committee room thereof, or the cloak rooms, the corridors, or any part of the state house adjacent to the legislative chambers, for the purpose of advocating, amending, or opposing any bill, resolution or measure," unless such person be a registered lobbyist.

Requests an Exception.
The message requests, however, that an exception be made of state officials and department heads appearing with the work of their departments, and of any persons invited by either house, or any committees, to appear before such house, or any of its committees, for the purpose of furnishing information or data on pending legislation.

"Honest men and measures will announce themselves and be welcome," says the message, "but the subsidized and professional lobbyist, intent on defeating the will of the people by endeavoring to corrupt the weak and to circumvent the strong, should be driven from the state house."

The full text of the message on lobbying follows:

"Gentlemen of the Forty-Ninth General Assembly:
"One great embarrassment attending upon the honest effort of a state legislature to give to the people remedial legislation has been the insidious influence of the corrupt lobbyist.

"Always the servile hireling of the concealed master, he sits near the seats of the members and in the committee rooms during the sessions of the committees and endeavors to poison at its source what would otherwise be the honestly expressed will of the people's representatives.

"It has been said in the past that Illinois was not free from this scourge.

"I have proposed several remedial measures to the present legislature and many other meritorious measures will be considered during the session. We should not sit quietly by and permit bills, designed to give relief to the people, to be changed, modified, rendered impotent and nullified by the machinations of undisclosed persons and influences, if it is in our power to prevent it.

Should Come Out in Open.
"Such persons and influences should come out in the open and show their colors, where all men can see them and know for what they stand. Honest men and measures will announce themselves and be welcome, but the subsidized and professional lobbyist, intent on defeating the will of the people by endeavoring to corrupt the weak and circumvent the strong, should be driven from the state house.

"In my judgment, no one not a member of this general assembly should be admitted to the floor of either house or the committee rooms thereof, the cloak rooms, the corridors, or any part of the state house adjacent to the legislative chambers, for the purpose of advocating, amending or opposing any bill, resolution or measure, pending in either house of the general assembly, unless such person shall first register his name and address with the secretary of state and the secretary of clerk of each house of the general assembly.

Spread Registration on Records.
"Such person, in addition to his name and address, should be required to certify in writing if he is employed by any person, firm or corporation; and, if so, the name and address of each employer, and what compensation he has received, or is to receive, if any. He should further be required to state in writing the bills, acts, measures or resolutions he is interested in and what the nature of his interest may be. Such registration and other information should be spread upon the records of the house or senate and published in the journal of its proceedings.

PLACE ALLEGED CONCENTRATION OF CONTROL OF ROADS IN EVIDENCE

W. J. Lauch Analyzes his Figures and Quotes J. P. Morgan and Other Financiers Who Testified before the Pujo Committee.

Chicago, March 2.—The alleged concentration of control of the railroads of the United States into a few hands as indicated by testimony gathered by the Pujo and other congressional committees was placed in evidence here today before the board of arbitration in the western railroad wage arbitration. Whether the evidence was germane to the arbitration was questioned by James M. Sheehan, attorney for the railroads, on the grounds that the ability of the railroads to pay the wage increases demanded is not to be considered by the board.

W. S. Stone, for the men, said that the railroad witness had attempted to show that the railroads had not increased their productivity and that it was therefore proper in the rebuttal to argue by evidence that the increased productivity had been absorbed by financial manipulation made possible through the concentration of control. W. J. Lauch, who compiled the evidence, then proceeded to analyze his figures and to quote J. P. Morgan and other financiers who testified before the Pujo committee.

SEEK MEN WHO RECEIVED LARGE SHIPMENT OF NITROGLYCERIN

CHICAGO, March 2.—Local officials of the federal department of justice are searching for a group of men who, it is said, received a large shipment of nitroglycerin from the east several days ago. Efforts to ascertain what disposition was made of the explosive were redoubled today when New York dynamite plot was made public. It is said that the nitroglycerin was shipped to Chicago from an eastern city in full compliance with the law but that the persons who received the consignment mysteriously disappeared a short time afterwards. Federal officials declined to discuss the subject today further than to admit that an investigation was being made.

REPUBLICANS CALL CONVENTION FOR THE NOMINATION OF JUDGE

DECATUR, Ill., March 2.—The first convention to be called for the nomination of a judge since the supreme court ruled that the primary election in June did not include judicial offices, was today set for March 30th, by chairmen of the Republican county committees of the sixteen counties lying within the third supreme court district.

George E. Keys of Springfield was chairman of the meeting.

Justice Dunn is the present judge from the third district.

MAKE SEVERAL ARRESTS IN PLOT TO OUST GOVERNOR OF RIO JANEIRO

RIO JANEIRO, March 2.—Discovery of a plot which is said to have had as its object the ousting of Nilo Pecanha as governor of the state of Rio Janeiro, has resulted in several arrests. Among those involved are sailors on the Battleships Minas Geraes and Sao Paulo. A rigid inquiry is being conducted and it is believed the movement is similar to the naval mutiny of 1910.

Official announcement has been made that no officers are involved in the conspiracy which is considered "a complete failure."

TWO IMPORTANT WITNESSES HAVE DIED

Los Angeles, Cal., March 2.—Two witnesses regarded as extremely important to the state in the prosecution of Matthew Schmidt and David Caplan, alleged participants in the conspiracy to blow up the Los Angeles Times building in 1910, are dead, according to reports received today at the office of the district attorney. One of these was George H. Phillips, superintendent of the powder plant at Giant, Calif., from which the dynamite to destroy the Times building was purchased. The other was Manuel Silva, a boy employee of the same establishment.

Arraignment of Caplan and Schmidt was again postponed today. It was stated that the two men would be brought into court tomorrow.

DEFENDS PURCHASE OF THE NEBRASKA CENTRAL

New York, March 2.—C. H. Vonder, a New York banker, made public today a letter he sent yesterday to the Interstate Commerce commission defending the purchase from him by the Chicago, Rock Island and Pacific railroad company in 1904 of the stock of the Nebraska Central railway company. In this he asserted that published excerpts from the testimony in the Rock Island investigation before the commission had created an impression contrary to that justified by the facts.

COUNT DE BEAUFORT IS KILLED IN BELGIUM

Chicago, March 2.—Count James Alexander Von Moulik de Beaufort, one time son-in-law of M. H. Killgallen, a Chicago steel magnate has lost his life fighting for France near Neuport, Belgium, according to a letter received by one of his former friends here today.

Beaufort's escapades in and about Chicago's cafes with his bull dog "Bob" made him known to the entire city during his stay here.

In 1912 his wife sought and obtained a divorce.

TAKE MAN ATTEMPTING TO BLOW UP CATHEDRAL

NEW YORK POLICE UNCOVER PLOT INVOLVING REIGN OF TERROR

Detectives Allow Anarchist to Ignite Fuse Before Making Arrest—Conspiracy Involved Assassination of Capitalists and Campaign Against Churches.

New York, Mar. 2.—The discovery of an anarchistic plot involving the assassination of Andrew Carnegie, Cornelius Vanderbilt, John D. Rockefeller and his son and other wealthy men and the organization of a reign of terror and looting in this city, was announced by the police today after they had arrested, under dramatic circumstances, a man who had just placed two bombs in St. Patrick's Cathedral where several hundred persons were worshipping. Today's sensational developments followed months of work by detectives in uncovering a conspiracy which they declare, projected the opening of a campaign of violence and bloodshed without precedent in New York City.

Allow Man to Light Fuse.
So carefully had the police worked out their plans that the anarchist was even allowed to light the fuse of one of the bombs which he carried into the cathedral despite the fact that the explosives were powerful enough to have badly damaged the edifice and possibly killed many in it. Scarcely had the bomb carrier ignited the fuse when one of half a dozen disguised detectives who were stationed in and about the church crushed the sputtering thread under his heel and in another moment the plotter was taken into custody just as he was about to light the fuse of the other destructive instrument.

Arrest Maker of Bombs.
Frank Abarno was the name given by the man who placed the bombs in the cathedral. Later Chas. Carbone, an 18 year old youth, was arrested at his home as the actual manufacturer of the explosives.

Still others were implicated in the plot, in the belief of the police and more arrests are expected in the near future. Both Abarno and Carbone late today, the police reported, admitted their part in the conspiracy, the carrying out of which was to have begun this morning with the attempted destruction of the cathedral. The men arrested, however, assumed all responsibility denying that anyone else was involved. When arraigned last today they were held without bail for examination Thursday. Abarno and Carbone are said to be members of the Presci group of anarchists in this city who take their name from Gaetano Bresci, assassin of King Humbert of Italy. According to the police, the plot to blow up the cathedral and follow this with attacks on wealthy men was conceived early in February.

Policeman Informs Superiors.
The plans of the conspirators miscarried because a young policeman, Emelio Polignani, joined in the plot as an avowed anarchist and for several weeks kept the police informed of the movements of his companions. Polignani was arrested in the cathedral today with a man who placed the bomb, but this was only in accordance with the prearranged plan of his superiors. The two men were taken to police headquarters where shortly they were arrested in the meantime. Then the two plotters and Polignani were put through a searching exhibition. So far as Abarno and Carbone knew, Polignani was as deeply involved as they and they had no suspicion as to his real identity.

Through the clever replies of Polignani, who assumed the role of a surly prisoner, Abarno was led into making his confession, according to the police, and later Carbone corroborated his partner's story. Abarno's story to the police was described later by officers as follows:

"I was in this job but never in any other. I put those bombs in there. I had been told that Archbishop Corrigan and Archbishop Hughes and other big men in the church were buried under the floor where I put the bombs and it was my hope that the explosion would open their graves.

"I am twenty four years old and came to this country with my parents sixteen years ago. I am a printer.

Outlines Plan of Anarchists.
"About five years ago I began to study anarchy. That, I decided, was the proper means of settling the wrongs of the poor. This was a terrible winter for the poor. Our group decided to do something. We decided to open a campaign against the Catholic and Protestant churches, then to terrorize and perhaps destroy the homes of the Rockefellers, Carnegies and some of the Vanderbilts and finally, when we had the city terrorized, to invade the banks at the head of an army of the poor and help ourselves to the hoards of the rich.

"We fixed on St. Patrick's Cathedral as the place to start because it is the largest Catholic church and our demonstration there would attract so much attention. Carbone was selected to make the bomb and he bought the materials.

"He made the bomb according to directions in a book printed in Ital-

ian and circulated by the anarchists. This book tells how to make bombs, how to place them and how to get away.

"Carbone made the bomb in a room on Third avenue."

"You helped him to make it!" snarled Polignani.

Helped to Make Bomb.
"It helped some," admitted Abarno. "We took the materials to the room in a trunk which we left there. Had we succeeded today we would have used that room as our headquarters for bomb making. Nobody suspected us."

Abarno insisted that he had no part in the bomb explosions of last fall in St. Patrick's Cathedral and in front of St. Alphonsus church. It was after these occurred that Police Commissioner Woods decided to make a determined effort to run down those responsible for bomb outrages. He started in by examining a number of Italian policemen and finally selected Polignani who was just out of the school of recruits, to join the anarchist camp.

It had been decided by the police that Bresci group of anarchists was the most dangerous in the city and Polignani joined the group.

War News Summarized

In a lengthy official communication the Russian government describes operation in north Poland and the Carpathians. The Germans, according to this announcement, although offering stubborn resistance to the Russian offensive, have been obliged to fall back to the northwest of Grodno and Mlava and Janow, near the east Prussian frontier.

The Austro-Germans also are reported by Petrograd to have been defeated in the Carpathians in a number of attacks, in which the losses were heavy.

Although details are meager it is believed that heavy fighting is going on in certain areas in the western arena, to which war zone the Germans are about to send considerable reinforcements. Here both French and English also have probably been reinforced along the battle line and have been conducting aggressive operations, particularly in the Champagne region.

Germany's reply to the identical note of the American government to Germany and Great Britain concerning Germany's war zone and the detention by British warships of non-contraband cargoes destined for Germany, has been made public. Germany agrees to have her submarines examine merchantment in the war zone, but if they carry contraband or are of hostile nationality, she will proceed against them according to international rules.

To make effective the British declaration of the allies' intention to stop commerce to and from Germany an order by the privy council will be necessary.

Up to the present such an order-in-council has not been issued.

No further statements regarding the operations of the Anglo-French fleet in the Dardanelles have been issued officially, but newspaper advices report that two forts well inside the Dardanelles have been bombarded by the warships and that a third fort has been shelled by a naval landing division.

CONFIRMS NOMINATIONS OF FOUR TRADE COMMISSION MEMBERS

Republicans Vigorously Oppose Mr. Rublee—Debate on His Name Continues After Others are Approved.

Washington, March 2.—In executive session late tonight the senate confirmed the nominations of four of the five members of the federal trade commission withholding confirmation only from George Rublee, Progressive of New Hampshire.

Republicans vigorously opposed Mr. Rublee and debate on his name continued after the others had been approved. The indications were that the executive session might last until morning.

The four whose nomination were confirmed are:

Joseph E. Davies of Wisconsin, Edward N. Hurley of Illinois, W. J. Harris of Georgia, Democrats; W. H. Parry of Seattle, Wash., Progressive-Republican.

PRIOR IS NAMED CHIEF COMMISSION ENGINEER

Springfield, Ill., March 2.—Joseph H. Prior of Chicago is appointed acting chief engineer of the state utilities commission, succeeding R. M. Feustel, whose resignation was announced yesterday. The changes are effective immediately.

Everett Jennings, chief engineer of the Utilities Commission, has been instructed to appear before the Interstate Commerce commission at Chicago to oppose the five percent increase on freight charges in Illinois.

PERITT SIGNS WITH GIANTS

St. Louis, Mo., Mar. 2.—W. D. (Polly) Peritt, former member of the St. Louis Nationals who recently jumped to the Pittsburgh Federals, today returned to the fold of organized baseball by signing a three year contract with the New York Nationals. His signature was obtained by John McGraw, manager of the Giants at Marlin Springs, Texas, training camp of the team.

RESCUERS BRING OUT TEN ENTOMBED MINERS

EXPLOSION IMPRISONS 182 IN LAY- LAN MINES IN WEST VIRGINIA

Bodies of Mine Victims are Taken Out—Estimate That Nearly 165 Men are Still in the Mines—Work of Rescue is Continuing.

Hinton, W. Va., March 2.—Rescue parties late tonight had brought out alive ten men and recovered the bodies of nine victims of the explosion which entombed 182 miners in the Layland Mines of the New River and Pocahontas Consolidated Coal company, seven miles from Quinimont early today. The work of rescue is continuing and is aided by the crew of rescue care No. 8, of the United States bureau of mines, which reached the scene tonight, estimated, nearly 165 men are still in the mines.

Kills Man on Surface.
The explosion destroyed the stone arch over the main entrance of the mine and caused the death of A. B. Cooper, a negro. Cooper was delivering groceries within 75 yards of the mine entrance and was hurled against a telephone pole. A dog which accompanied him was killed also.

For an hour and a half after the explosion heavy clouds of dense, black smoke issued from the workings. The fan was damaged and was not ready for use for nearly an hour.

A crowd of anxious relatives of the entombed men stood around the entrance all day, but no bodies were allowed to be seen. It is hoped that some of the entombed men have been able to brattle themselves in so as to escape the noxious after-damp.

REPORT GERMANS REFUSE SAFE CONDUCT FOR RETURN VOYAGE

Advices Received at the Hague State Permit Will be Given Only to Ships Taking Course North of the Shetland Islands.

The Hague, via London, March 2.—(11:30 p. m.)—The German government has determined to refuse to grant any more safe conducts for American relief ships touching at English ports for coal on the homeward voyage according to advices received here and it is also reported on the same authority that a permit for the return voyage to the United States will be given only to vessels to take the course north of the Shetland Islands.

It is considered in influential circles in Holland that the efforts of the American commission of relief to save the civilian population of Belgium from starvation are thus threatened with immediate danger as Rotterdam is the only practicable port through which the Belgians can be fed and it is argued that the relief ships must be able to proceed to and from the port by the direct route with a safe conduct under the commission's flag, or the whole work of relief will become absolutely hopeless for practical reasons.

SENATE SEEKS TO CATCH UP ON LEGISLATIVE PROGRAM

House Promptly Agrees to Conference Report on Naval Bill—Developments Practically Seal Fate of Ship Bill.

Washington, March 2.—Congress settled down tonight for what the leaders expect to be a continuous session until the gavel falls to signal the end at noon March 4th. The house marked time for a few hours after sending the government ship purchase bill back to conference while the committees labored on final agreements on the billion dollar appropriations for expenses of the government. Meanwhile the senate sought energetically to catch up on the legislative program.

Developments of the day practically sealed the fate of the ship purchase bill, administration leaders agreeing that it would be almost impossible to act upon the conference report in the senate after it is disposed of in the house.

Tonight the house promptly agreed to the conference report on the naval bill with a provision directing the secretary of the navy to report to the next congress plans for four naval vessels based on the European war experiences. The reports on the military academy and the diplomatic and consular bills also were agreed to.

FATE OF RURAL CREDITS STILL IN DOUBT

Washington, Mar. 2.—What disposition congress would make of rural credits legislation as a rider to agriculture appropriation bill still was in doubt at a late hour tonight. Conferees to which the supply bill with the farm loan provision was referred deliberated all day and far into the night after the senate had voted to disagree to the house amendments. Senator Gore said shortly before midnight that the conferees were prepared to sit all night in the hope of reaching an agreement.

TRAWLER STRIKES MINE.

Hull, via London, March 3.—(12:31 a. m.)—The Trawler Saphire has been sunk by a mine in the North Sea. The crew of eleven men were saved.

JUDGE LANDIS SANCTIONS KEARNEY'S APPOINTMENT

Action is Taken in Quincy Federal Court—Decatur Postoffice Employee is Found Not Guilty.

Quincy, Ill., March 2.—Judge Kenesaw M. Landis of Chicago, conducting the March term of this district of the United States court, today sanctioned the appointment in Illinois of Edward F. Kearney, of New Orleans as associate receiver of the Wabash railroad. He will act jointly with E. B. Pryor, appointed several weeks ago. The petition for Mr. Kearney's appointment was presented by O. Scott Humphrey, of Springfield, a son of J. Otis Humphrey.

William Young of Decatur, Illinois, a postoffice employee, was found not guilty of embezzling money from the mails. The "unwritten law" figured largely in his acquittal, evidence for the defense showing that he had only taken letters from the mails that were written by his wife to a man with whom Young charged his wife was intimate. In instructing the jury Judge Landis said: "You will not ravish the Goddess of Justice by finding this man not guilty."

LONG TERMS AT JOLIET PRISON COMPLAIN ABOUT CHICAGO GUNMEN

Warden Gives Notice He Will Have No Cells to House New Comers for Thirty Days.

Joliet, Ill., March 2.—All the long terms in the state penitentiary here are complaining about the Chicago "gunmen" who are crowding the institution and Edmund M. Allen, warden, gave notice today that he will have no cells to house new comers for thirty days. There are 1,800 men in the 900 cells.

A wave of Chicago police activity and the recent court practice of sending convicted men to the prison rather than the county jail has filled the penitentiary to capacity and a large percentage of the convicts are young Chicagoans who violate prison rules and make trouble for all the inmates, according to Allen.

The regulation forbidding parolees to return to Chicago has kept many from their release because they cannot find work in the smaller downstate cities.

MAN IS KILLED AND GIRL FATALLY INJURED IN AUTO ACCIDENT

TOLEDO, O., March 2.—One man is dead, a young woman is dying in a hospital and two men and two women are suffering from severe bruises as the result of the overturning of a touring car on a highway near the outskirts tonight. The dead man is Harold L. Slater, 21 years old, driver of the car. The dying girl is Miss Margaret Roberts, 19 years old. Others injured are Sybil Comer, 19; Cecil Murphy, 19; Walter J. Semlo, 21 and Ralph Baugh, 22.

The six persons were out for a ride in Miss Murphy's father's automobile and trying to pass another car the machine went over an embankment.

SENATE DEMOCRATS FAIL TO LINE STRENGTH ON COMMITTEE LIST

Have About Despaired of Being Able to Settle Problem Before Permanent Rules are Adopted.

Springfield, Ill., March 2.—Democratic leaders of the senate failed again tonight in their efforts to line up the Democratic strength in support of the list of Democratic committee assignments as prepared by the Democratic committee on committees. They have about despaired of being able to settle the committee list before the permanent rules are adopted.

It was 9:30 when the senate convened and then the body proceeded to despatch more business than at any previous session.

The two special messages laid before the house today by Governor Dunne were presented in the senate tonight. One urges an emergency appropriation for the reimbursement of the financial sufferers as a result of the foot and mouth contagion. The other urges action requiring the registration of legislative lobbyists.

BATTLES RAGE ALONG WHOLE EASTERN FRONT

RUSSIANS SLOWLY PUSH GERMANS BACK IN NORTH POLAND

Austrians Make Repeated Attacks in the Carpathians and Eastern Galicia—Germans are Reported to be Sending Strong Reinforcements to the West.

London, March 2.—(10:50 p. m.)—The Russian armies are now engaged in battles along virtually the whole eastern front. In north Poland, having by means of large reinforcements been enabled to resume the offensive, they are slowly pushing the Germans back to the east Prussian frontier. In the Carpathians and in eastern Galicia they have been engaged for several days in resisting fierce and repeated attacks by the Austrians. Except in front of the fortress of Ossowetz, which they are still bombarding with their heavy guns, the Germans, according to the Russian official reports, have turned their backs upon the Russian railways—their first objective when emerged from east Prussia on the heels of the retreating Russians a short time ago. In some places however, they are fighting stubborn rear guard actions which have led to close and severe fighting.

Austrians Deliver Vigorous Attack.
The Russian offensive extends across Poland to the lower Vistula, where the Russian troops are holding back the Germans who threatened their lines south of the river. For the moment, however, the Carpathians is the scene of the heaviest fighting. The Austrians, who, despite their repeated defeats and heavy losses in men and guns seem to have a never ending source of supply, have returned to the offensive and with the aid of large artillery reinforcements have delivered a vigorous attack between the Ondawa and San rivers.

This, according to the Russian account, was without any result but Austrian headquarters says that it will in time have its effect. At other points along the mountain ranges similar attacks were delivered and most desperate fighting occurred. This was especially so on the hill near Kozlouwka which the Austro-Germans have been trying for weeks to capture as it stands in the way of their invasion of eastern Galicia. Still further to the east near the town of Stanislaw, which once again is reported to be in Russian hands, the armies have met and the Russians declare that the Austrians have been forced to retire.

Send Reinforcements to West.
Despite all this heavy fighting in the east the Germans are reported to be sending strong reinforcements to the west for a new attempt which they are to make to break through the allies' line in France and Flanders. The people of the towns of Belgium have been warned to let a large number of German soldiers which can mean nothing else but that Germany is making preparations for another great effort The British, following the example of the Belgians, have shown some anxiety and have captured a German trench near LaBassee, the credit for this going to the men of Princess Patricia's Light Infantry, the 1st Canadian to reach the front who have been in at least two previous engagements. The French continue their aggressiveness in the Champagne region and, according to the communication, have won the distinction of having the German guards regiment, with other reinforcements sent to check them.

Hear Nothing From Dardanelles.
Nothing has been heard at London from the Dardanelles today and it is though possible that the storm is still interfering with the operations. It is said that the ships already mentioned are only part of the fleet that was sent to destroy the forts lining the Straits; so that if the report is true that an Australian fleet has started for the Aegean Sea, which seems probable, it will have a warm welcome.

Naval men are of the opinion that when the fleet gets to work in earnest relays of ships will be sent against the forts and thus, when one section is away replenishing fuel and ammunition or having guns replaced, others will keep up the bombardment.

CURLEY REPORTS EVERYTHING FAVORABLE

El Paso, Tex., Mar. 2.—Jack Curley, promoter of the Johnson-Willard bout, originally set for March 6th, at Juarez, Mexico cabled today from Havana as follows: "Johnson has been misled by promoters here into believing the match not as safe as a match here. I have had my first interview with Johnson. He acts friendly. Everything favorable."

SEEKS REWARD FOR SCIENTIST

Washington, Mar. 2.—Secretary Lane today called to the personal attention of President Wilson the work of Dr. W. E. Rittman, a scientist in the bureau of mines, who has made valuable discoveries recently in connection with the production of gasoline, dye stuffs and high explosives. Secretary Lane said several scientists in his department had recently made discoveries which would have won wealth and fame for them had they been outside of the government service and he was trying to devise a means for rewarding their loyalty.

VOTE FOR FIVE.

And still there are people who plan to vote for two candidates for mayor and eight commissioners in the coming primary election. Each voter may cast a ballot for one mayor and four commissioners only, although the two receiving the highest vote for mayor and the eight receiving the highest vote for commissioner will be nominated. Any voter who marks a ballot for more than five candidates will therefore lose his vote.

Voters are wondering why it will be necessary in the coming election to have separate ballots for men and women and to keep them in separate ballot boxes. In this election men and women vote for exactly the same officials but under the law the ballots must be separate. The only difference will be that one will be marked "Official Primary Ballot" and the other "Woman's Official Primary Ballot." The provision for separate ballots is no doubt necessary under the law for in part of the elections the ballots must necessarily show different candidates.

WILL AID SALOONS.

The various orders that Sheriff Wheeler has issued in Springfield indicating his intention to "clean up the town" are said to have resulted in great consternation in some quarters. This is especially true of the most recent order to the effect that saloons must obey the state law and remain closed on Sunday.

While Sheriff Wheeler's course will probably not be approved by the saloon element he is taking a course which will eventually be of benefit to the liquor interests. The history of cities where saloons are permitted to openly violate law is that finally the people rise in their might and put them out of business. This would be likely to happen even in Springfield where the people a year or two ago established a new record in municipal affairs by voting in favor of open Sunday saloons in direct opposition to the state law on the subject. With regulated law observing saloons in Springfield, the saloons will have at least a longer lease of life.

RESTRICTING LOBBYISTS.

Gov. Dunne's message to the general assembly yesterday suggesting a system of registration for lobbyists touched upon a very important subject and the suggestion is well worth consideration. The law the governor favors is like those now in force in a number of states where the results are said to have been very beneficial.

Lobbyists in the past while in some cases doing legitimate work, in other instances have brought discredit upon the legislature. Their influence as a whole is bad and any measure which will serve to bring out into the light of day all of their sayings and doings will be a salutary thing. The work of the lobbyist if done openly and above board will not be harmful for publicity is exactly what the unprincipled lobbyist does not want and he cannot accomplish much in the open. The legislative rules adopted against lobbyists are very much in the spirit of the enactment that Gov. Dunne proposes.

WILSON COMPLETES SECOND YEAR.

Woodrow Wilson today completes his second year in the Presidential chair. He has met with disappointments and triumphs, bitter criticism and high praise. His task has been heavy throughout the year, and

weight of office is today at its greatest.

The end of his second presidential year finds President Wilson in a perplexing situation. He is faced with questions bigger in our national life than any which beset the nation since Lincoln. He is called upon to steer the ship of state through the great world-storm of war that threatens to engulf all civilized nations.

As a world figure he holds a position which no other president has been called upon to fill. The president of the United States is looked to for leadership by all the neutral nations. The turn of world events has thrust upon him the heavy human duty of accepting this leadership. It was a brand new thing for the world to look to America. It is indeed a momentous situation, and one which calls for all the learning of the professor, the calmness of a man who knows events, the acuteness of the great thinker and the humanity of the heart that knows men.

During the year now passing, President Wilson has met with many more disappointments. He has lost his wife and helpmate, and the great rooms of the White House have been robbed of much of their attraction for him. He is more alone in spirit. But he has thrust his energies into his work to offset this feeling. Then last November he saw the sweep of the elections show clearly that the country was not with him as he had hoped and expected. Although he had worked to his utmost, he read in the returns that the wave of feeling that had swept him into office had receded. Regardless of the cause, the result was surely disheartening to a man beset by the difficulties which were growing thicker about him.

PAY FOR SLAUGHTERED HERD.

Gov. Dunne's request for speedy action in appropriating money to pay the state's share of the cost of cattle slaughtered on account of the hoof and mouth disease should meet the favorable action of the legislature. When the legislature takes such action a feeling of certainty of remuneration will come to the owners of affected cattle which will do much toward helping to stamp out the disease.

The fear that the state would not pay half the cost, it is said, has resulted in a number of cattle owners keeping secret the fact that they had cattle affected and has thus been a large factor in spreading the disease. The speedy stamping out of the disease and the removal of quarantine restrictions will give higher prices for live stock.

STANDARD SCHOOLS.

Six years ago, in 1909, the office of the Superintendent of Public Instruction instituted a plan of standardizing rural and graded schools. A pamphlet was issued which set forth definitely what a school should have and how it should be conducted to meet the definition of a standard school. Two members of the office were sent out on the invitation of county superintendents to inspect schools, and when these were found to meet the requirements, they were recognized as "Standard Schools." The county superintendent was then authorized to inspect and to recommend schools for standardization.

A diploma is issued to such schools and the label "Standard School" is placed over the door.

The schools standardized up to the present are:

| | | |
|------|-------|-----|
| 1909 | | 34 |
| 1910 | | 142 |
| 1911 | | 277 |
| 1912 | | 465 |
| 1913 | | 611 |
| 1914 | | 629 |
| 1915 | | 84 |

Total 2256

To the present time thirteen schools have been recognized as "Superior Schools", and fifty-three graded schools have been recognized as "Standard Graded Schools."

The recognition is for one year. To continue on the list the school must be reinspected by the county superintendent and reported as still maintaining the standard.

GASOLINE 12C PER GALLON AT NEWMAN'S GARAGE.

MAY ADOPT AN IN-STRIKE.

Glasgow, Scotland, via London, Mar. 2.—(8:10 p. m.)—The engineers on a strike in the Clyde ship yards who on Saturday were ordered by the government to return to work, decided today to resume operations on Thursday on condition that no overtime work be required of them. They also decided that if their demand for an increase in wages of two pence (four cents) per hour was not conceded they would adopt an in-strike, which means that they will defer at their tasks, thereby reducing production to a minimum.

ASKS PERMISSION TO VISIT PRISON CAMPS.

Washington, Mar. 2.—The United States government, acting upon Great Britain's request, has asked Germany through Ambassador Gerard at Berlin, for permission to have an American chosen by Ambassador Page at London visit the camps in Germany where British war prisoners are detained and report on their condition.

REFUSE ATTACKS ON MEXICO CITY.

Washington, March 2.—Despatches to the Carranza agency here from Vera Cruz today announced that the garrison at Mexico City yesterday repulsed attacks from three different points by Zapata and Gonzalez Garza forces.

WOMEN OF THE WEEK.

Chicago, Ill.—On next Saturday, Mrs. May Belle McArthur, who decided on January 22 that with her it was to be svelte or die, will have completed a five weeks' "beauty fast." Since the latter date, Mrs. McArthur has rested on an occasional bit of celery or lemon and water. She declares that her health has been considerably improved by the diet, and that she feels but little hunger. By Saturday she expects to have lost 40 pounds of her former avoirdupois of 155.

New York—Mrs. William K. Vanderbilt and Mrs. Elizabeth Milbank Anderson have donated to the national committee for mental hygiene gifts amounting to \$94,500. Mrs. Vanderbilt's gift was \$44,500 and Mrs. Anderson's \$50,000, in addition to her previous gift of \$10,000.

Cincinnati, O.—A woman's city club is to be formed in this city, after the order of the Men's City Club, and along the lines already pursued by the women of Chicago, Los Angeles and Boston, who are running their clubs very successfully. These organizations are non-political and enroll from all classes of women to work for civic betterment. The first mass meeting of Cincinnati women toward organization is called for March 6.

Chicago—Mrs. F. W. Priester, a sister of Alderman Jacob A. Hey, will go on record as the woman for whom the ballot comes before marriage. Mrs. Priester, who married yesterday, had postponed the wedding in order that she and her husband might not be away on their bridal tour on primary day, Feb. 23.

San Francisco.—Mrs. Phoebe Hearst, mother of William Randolph Hearst, has joined the Congressional union for Woman Suffrage, and is to take an active part in the propaganda work at the Panama-Pacific exposition.

Notable visitors at the exposition will be Mr. and Mrs. Vincent Astor and Mr. and Mrs. Alfred G. Vanderbilt of New York. Both couples have elected a yachting cruise through the Panama canal as a means of travel, and are now sailing in southern waters on their way to the "Jewel City."

Minneapolis, Minn.—Miss Helen Keller, the wonderful deaf and blind girl, who was at one time totally dumb, recently told friends here that she has hopes some time to be able to sing. To that end she is having her voice systematically trained by vocal teachers. Miss Keller is now on a lecturing tour of the country with her devoted teacher, Mrs. John Macy.

Montreal, Quebec.—The petition of Mrs. Annie Langstaff that the bar of the Province of Quebec be ordered to admit her to the examinations preliminary to the study of law, was recently dismissed with cost by Judge St. Pierre, who ruled that "women barristers would be a manifest violation of public decency." Mrs. Langstaff is a McGill bachelor of civil law, and was the first woman to apply for the right to admission to the bar. The case has attracted wide attention through out the Dominion.

Elizabeth, N. J.—Mrs. Mary C. Hill, 98 years old, is an enthusiastic motorist and attributes her good health to a daily spin in her motor, which she operates herself.

Arlington, N. J.—Miss Edna Whigg, suing Dr. Arthur H. Nylen of Brooklyn for \$25,000 heart broken declined to wed him when offered marriage as a settlement, saying that she did not consider it safe to accept marriage from him "at this late date." The case was thrown out of court by the judge.

Bunyon and His Book.

The imperishable allegory on which Bunyan's claim to immortality chiefly rests, the "Pilgrim's Progress," was at least planned in jail, and probably the first part was written there. His "Grace Abounding," "Holy City," "Resurrection of the Dead," with other treatises and tracts, were also composed in the den where he languished twelve years. He obtained his full release through the intervention of the Quakers, and his name is included in the general pardon passed by the king in council in behalf of the prisoners of that persuasion bearing date of Sept. 13, 1672. Bunyan will perhaps always hold rank as one of the first among religious writers in the English language.—Case and Comment.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try It! Your Hair Gets Soft, Fluffy and Luxuriant At Once.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fash, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?—Advertisement.

FORMALDEHYDE

The Farmer's Friend

It has many uses upon the farm and in the home. The value of Formaldehyde in treating grain smut is recognized by scientists.

The farmer cannot be too careful in selection of his seed; that which appears to be free from smut may be strongly contaminated. The farmer ought to be sure that his seed is free from disease germs before planting, and under the circumstances the only way to keep on the safe side is to treat all seed. Recent improved methods of manufacture have cheapened the price of formaldehyde so that it is now inexpensive.

Come in, talk with our druggist regarding the formaldehyde treatment of grain smut. Let him show you how cheaply and easily you can get better results. Formaldehyde has many uses and is rapidly replacing more poisonous and dangerous germicides.

The chairman becomes an ex-officio member of the Retail Merchants' committee, but individual grocers need not belong to the Chamber of Commerce to have membership in the organization. This meeting at 2:30 o'clock Tuesday in the commercial association rooms is the first of a series which will include retail dealers in other lines. The grocers will meet at a 6:30 o'clock luncheon some day next week for further consideration of the plan.

LITTERBERRY ROAD DISTRICT RETAINS ELECTION METHOD

A special election at Litterberry Tuesday for the citizens of road district No. 2, resulted in a decision in favor of the present system of three road commissioners. It was proposed to dispense with two officials and leave the work in charge of one commissioner but the proposition was lost 29 to 81. The commissioners of district No. 2 are Willard W. Young, John E. Kennedy and E. J. Henderson. By the present method, commissioners are elected for a three year term, one going out of office each year.

JOSEPH F. BRENNAN
Candidate for Commissioner.

Running for Office

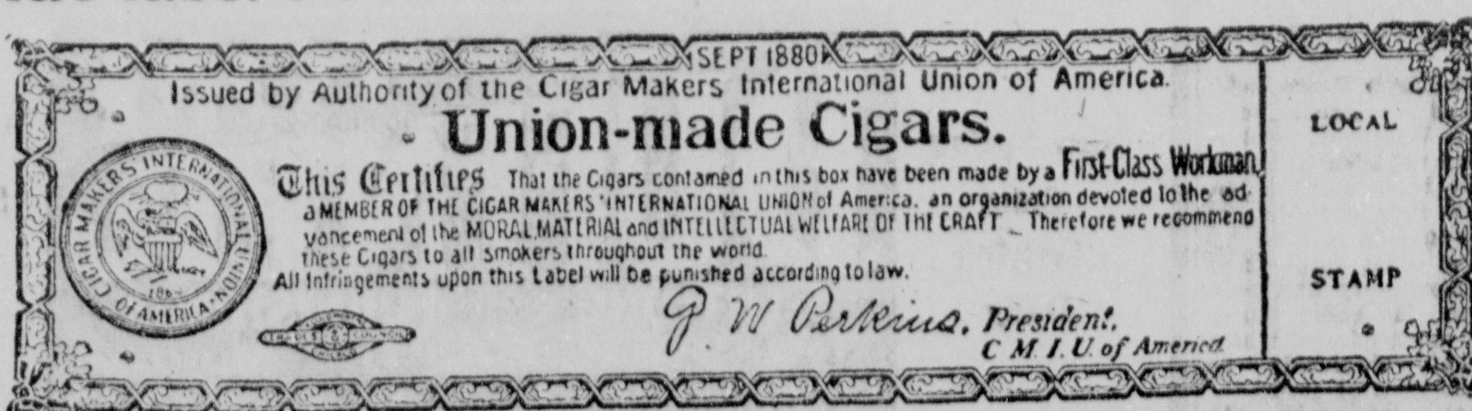

When a man runs for office he must put modesty aside, especially if running on his record. Joseph F. Brennan does not claim to have done more than his duty while serving as commissioner of the light and water departments but he does claim to have attended strictly to business.

"I have seen Joe Brennan returning from the water plant at four o'clock in the morning more than once," said a citizen yesterday, "returning after correcting some machinery or well trouble he had been called out about. Brennan has devoted his best time and thought to his work."

If nominated and elected a commissioner and assigned to the light and water departments, J. F. Brennan will bend his best energies to further bettering the service.

HUNG JURY LIKELY IN WAGGENER CASE

NO AGREEMENT HAD BEEN REACHED AT 3 O'CLOCK THIS MORNING.

Marriage Contract Introduced in Evidence in Case Where Children of Thomas Waggener Asks For a Conservator—Most Witnesses Believe Aged Man is Fully Able to Care for Own Property.

The hearing of the petition for an appointment of a conservator for Thomas Waggener, until recently a resident of Sinclair precinct, was continued in the county court before Judge Thomson Tuesday, and the case was given to the jury at four o'clock in the afternoon. It became evident that the jury was going to consider the evidence at length and Judge Thomson left them in charge of Deputy Sheriff Stice with instructions that a verdict if returned be sealed and opened today.

The principal witnesses of the day were Thomas Waggener, the defendant; Bert Waggener, his son; Luther Waterfield, his son-in-law; Miss Edna Colby, his step-daughter; W. N. Hairgrove, E. E. Wells, T. H. Buckthorpe and Charles B. Graff. The last three mentioned gave testimony tending to show that in their opinion Mr. Waggener is fully able to handle his own affairs. The defendant was put through a long series of questions by Mr. Priest, and while he was occasionally slow in answering, there was nothing to indicate that he did not thoroughly understand the business transactions prior to his marriage or that he did not have a clear knowledge of his own financial affairs.

Related Personal Affairs.

The son, Bert Waggener, in his testimony, was called upon to relate various personal matters relative to the parsimonious habits of his father, together with facts about his drinking habits. The witness told that his father kept whisky in the house at all times and that while intoxicated he sometimes abused the late Mrs. Waggener. Other such family secrets were dragged from the closet and some of the testimony was wholly personal.

Miss Edna Colby, daughter of the present Mrs. Waggener, told something of their home in South Jacksonville and in the course of questions described the new home on West College street. She said that she and her sister were paying board to their mother, this condition being outlined in the antenuptial contract which Mr. Waggener made with his present wife.

W. N. Hairgrove was one of the witnesses examined, as it was he who drew the original antenuptial contract for Mr. Waggener and Mrs. Colby and subsequently revised it into the form desired. Under examination Mr. Hairgrove testified that in his opinion if Mr. Waggener is not able to look after his own affairs that no one is.

The provisions of the antenuptial contract which Mr. Waggener and Mrs. Colby signed and which was introduced in evidence in the course of the hearing are printed below.

Predicts Estate Will Disappear.

The evidence was practically concluded at the morning session and the attorneys began their argument shortly after noon. J. O. Priest made the opening statement and after E. P. Brookhouse and W. T. Wilson had addressed the jury on behalf of their client, he closed the case for the petitioners. Mr. Priest sought to emphasize that he had no personal bias in the matter and that the case came to him simply in the course of business, and that his feelings were friendly both to the petitioners and to Mr. and Mrs. Waggener. He sought to make it clear that Mr. Waggener's estate did not justify the large expenditure for a home or other expenditures which he was thought to contemplate. The attorney then went on to relate the instance of Mr. Waggener having determined to buy the Cridland home on South Diamond street and subsequent to a visit made there by him, accompanied by Mrs. Colby, changing his mind and purchasing more expensive property elsewhere. The attorney sought to show that the moving spirit in behind the contract was Mrs. Colby, and that Mr. Waggener had been lead or induced to make an expenditure of \$4,000 for a home because Mrs. Colby so desired. The attorney intimated that unless a conservator should be appointed that in a few years' time Mr. Waggener would dissipate his entire holdings. He said that the purpose of the petitioners was not to do any injury to their father, not to take him out of his present home, but simply through the appointment of a conservator to manage his affairs to see to it that his present property holdings do not slip away from him.

Mr. Waggener's Rights Protected. Mr. Wilson and Mr. Brookhouse, on behalf of Mr. Waggener, declared that there had not been one particle of evidence to show that Mr. Waggener is not fully capable of managing his own affairs. The attorneys regretted that unpleasant facts in the family history had been given an airing in court which could do no one any good and which they stated had absolutely no bearing upon the point at issue.

They said that under the law Mr. Waggener, being perfectly able to attend to his own business affairs,

had every legal right to sell a tract of land to his son as he did and, further, that he had a perfect right to marry again and to deed a house to his wife. They pointed out that the deed to the property and the contract made were of such kind that he was guaranteed a home and care during the declining years of his life.

They alleged also that these documents were so drawn that Mrs. Waggener could not secure any further interest in the property and that the documents were drawn by Mr. Waggener with the very purpose of protecting the interests of the children who have since sought to have the management of his affairs taken from his hands.

The Marriage Contract.

This agreement made this 20 day of February, A. D. 1915, between Thomas Waggener of Jacksonville, Morgan County, Illinois, hereinafter called the party of the first part, and Augusta Colby of South Jacksonville, Illinois, hereinafter called the party of the second part, Witnesseth:—

Whereas the parties contemplate a marriage with each other, and the party of the first part is seized and possessed of property of value, both real and personal, and desires to make definite provisions for the party of the second part in lieu of dower and homestead of his real property, and in lieu of any disposition of his personal Estate, or any right or claim which the party of the second part might make as widow, heir, survivor or next of kin.

Now, therefore, in consideration of the said marriage and of the love and affection which the said party of the first part bears unto the said party of the second part, and in consideration of the covenants hereinafter contained; the said party of the first part hereby agrees to buy a suitable residence property in the City of Jacksonville, Illinois, of the value of Four Thousand Dollars (\$4,000) and have deed here to executed to the party of the second part, reserving unto the party of the first part the right to live in and occupy the said property during his natural life, the fee to the said property to be in the party of the second part, and the said property to be the sole and separate property of the said party of the second part forever; and the party of the second part on her part agrees to acknowledge upon request of the party of first part any proper instrument or release or conveyance in order to enable the party of the first part to sell, convey or incur any real estate now owned, or to be owned or acquired by the party of the first part, free and clear of any apparent right or dower, or homestead therein. And that in the event of the death of the party of the first part, should the party of the second part survive, that she will make no claim or dower or homestead award or other interest in or to the said property of the party of the first part; and hereby agrees to and does relinquish any such rights that may be acquired on account of the marriage contract and relation.

It is further agreed by and between the parties hereto that the children of the party of the second part, who are now grown and employed for themselves may still live with the parties to this contract in a joint home with the parties hereto and on the payment of Three Dollars (\$3.00) per week each while they so reside; and that the young child now living with its said mother may still remain as a member of the family until she has reached her majority; and the said children may remain so long as the association is

HOG FEEDERS

We have after several tests, that 1-3 alfalfa chopped up and mixed with 2-3 shelled corn while corn is hot, after taking it out of our Grain Softener, and letting stand 2 or 3 hours in separate tank with cover over it, makes a good hog feed. We add 1-2 gallon of soda to each 15 bushels corn we cook and this helps to keep hogs healthy.

Cob meal cooked and mixed with alfalfa or clover the same way makes a good feed for milk cows. Silage will also make a good mixture, but chopped shock corn answers nicely. If it is very hot when mixed, with plenty of water in feed.

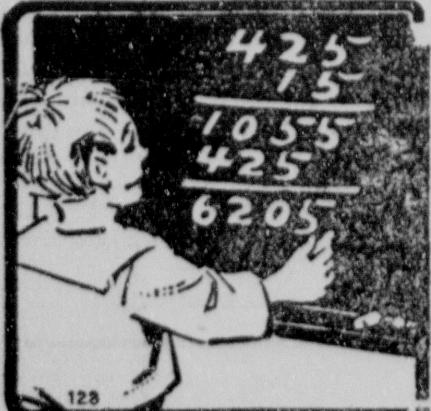

The Amish people mix their feed at 4 o'clock each morning to feed at sun-up, they put the cookers in their barns on cement floors, and make a flue of double tile, 12 in. and 8 in. with cement between them, to pass through loft. This makes a good room in the barn to mend harness, etc.

Do not feed shelled corn alone to anything. It is too rich when cooked in my cookers, too much digestible protein and oil in it. To anyone who feeds cattle we will ship one on 30 days trial, so it will not cost you a cent to test it and all cattle feeders will find it saves them 1-2 their feed, and hold the gain on hogs commonly obtained with the syrup and oil drawn off the corn made into a slop.

CHAS. WOOD, R. F. D. No. 6

P. S.—This mixture for cattle makes the best horse feed I ever saw fed. The Dutch feed it to all their horses. Try letting it steep in boiling hot water on back of your cook stove for one hour but do not let it get hot enough so you can smell it cooking, and it will then lack almost 25 per cent of being the same as my feed.

ELEVATOR EMPLOYE AT MEREDOSIA KILLED BY ACCIDENT

Owen Hamman Met Death While Attempting to Move Cars—Was Thrown Against Concrete Wall and Crushed.

Monday afternoon at four o'clock a shocking accident took place in Meredosia when Owen Hamman was instantly killed near the Farmers' elevator.

The young man was employed at the elevator and was endeavoring to move some freight cars when a cable pulley casting broke and he was thrown violently against a cement wall and instantly killed. It is not certainly known whether he was killed by the casting striking him or by his striking the wall.

He was 21 years of age and had been employed at the elevator some eighteen months. He was the oldest son of Mr. and Mrs. Edward Hamman residing two miles east of Meredosia. He was a popular young man of excellent character and much esteemed by a great many friends. His family are prostrated with grief over the sad and sudden bereavement.

The body was taken to Schaefer's undertaking establishment and Coroner George W. Wright went down to hold an inquest.

WILL ENGAGE IN

PRACTICE OF LAW

One more member has been added to the legal profession in Morgan county. He is H. P. Samuell, recently of Three Forks, Montana, although he was a resident of Jacksonville several years ago. Many will perhaps remember him as being the son of H. B. Samuell who from 1900 to 1905 was the buyer or purchasing clerk at the Insane Hospital.

H. P. Samuell.

While living here Paul attended Whipple academy and Illinois college and afterwards moved to Bloomington, where he graduated from Illinois Wesleyan law school. He has been practicing law in Montana for more than four years, but was forced to leave that country and abandon a lucrative law practice on account of the high altitude. We regret that he was forced to leave Montana but are glad to welcome him to Jacksonville as a citizen. Mr. Samuell is located on the fourth floor of the Ayers National bank building.

"A PRISONER'S REQUEST" WAS SUBJECT OF SERMON LAST NIGHT

Rev. P. R. Powers Draws Striking
Lesson at Grace Methodist Church
Revival.

Tuesday night Rev. P. R. Powers preached from the answer of Christ to John the Baptist's request, "Art Thou the Christ or Look We for Another?" The sermon was a strong message to Christians to be faithful representatives of Him whose name they wear. One of the striking illustrations the speaker used was to illustrate the misrepresentation that often makes men sceptical and keeps them out of the church.

A new tailor came to Jacksonville and sought to build up a business but found that established firms held their customers and he could get no business. Then he made the very finest suit that his best workmen could make and out of the very best material in his shop and gave it to a man to go among his friends, show this suit and carry samples of other goods. But this man goes to a second hand store and sells his new suit and trades for an old out of date and shoddy suit. He puts this on and goes out telling the people that this old suit represents the kind of the work the new tailor puts out. How much business would he get? He would simply kill any chances the new firm would have.

How like this is the misrepresentation of Christ by many who profess to serve Him. There are four ways God has of revealing Himself to the world: by the written revelation; by preached truth; by the Holy Spirit and by human lives. Doubtless the last method is used more than any other in making Christ known to the world. The sermon was very clear and forceful. An earnest appeal was made for more prayer and many pledged themselves to spend time in earnest prayer for the meetings.

Several of the groups met for prayer at 7 o'clock. Rev. Mr. Powers spoke briefly at the Chapel exercises of the Woman's college Tuesday. The audiences are increasing and the interest deepens each day.

Rev. Mr. Powers is stopping at the home of Mrs. Martha Capps Oliver, 518 N. Church, while in Jacksonville. He is ready to give counsel and help at any time to those desiring counsel. Mr. Joe Chambers will sing at the service Wednesday evening.

ings, and no person not a member of either house of the general assembly and not so registered should be permitted to discuss any measure, bill, act or resolution so pending before any committee or with any member of either house.

"In any resolution covering this matter that is adopted by either house, however, nothing therein contained should apply to any person of persons invited by either house, or any committee thereof, to appear before such house, or any of its committees, for the purpose of furnishing information or data desired by either house or any such committees, on any matter pending before either house or any of its committees, provided the name and address of any such person, so invited and appearing before any committee of either house, shall be reported to the clerk (or secretary) of either house by the chairman of such committees and published in the daily journal of its proceedings.

"Neither should any resolution adopted by either house concerning this matter apply to any state officer or department head appearing before the various committees relative to the work of their departments.

"Respectfully,
(Signed) "E. F. Dunne,
"Governor."

Asks Emergency Appropriation.
The message regarding the foot and mouth appropriation recites that stock raisers are anxious to be reimbursed; that the federal government already is compensating stock raisers to the amount of one-half of the appraised value of their slaughtered stock; and that the state should compensate the other half at the earliest possible moment. The full text of the second message follows:

"Gentlemen of the Forty-Ninth General Assembly:
"Owing to many trustworthy representations made to me by stock raisers and others cognizant of the facts in relation to the financial distress of stock raisers resulting from the slaughter of animals made necessary by the foot and mouth epidemic, I would respectfully recommend that the legislature take prompt action in the way of making emergency appropriations to compensate all stock raisers in the state of Illinois to the amount of one-half of the appraised value of their slaughtered stock; the federal government now being engaged in compensating for the other half. If possible, this appropriation should be made with an emergency clause so as to take effect at the earliest possible moment.

"Very respectfully,
(Signed) "E. F. Dunne,
"Governor."

House Adopts Rules.
After hearing Governor Dunne's messages the house adopted the rules it will work under this season and seated E. Walter Greene, Republican of Hillsboro, from the contested thirty-fourth district.

Tomorrow the roll will be called for the first time for the introduction of bills. This will enable that body to proceed with the work of considering and passing bills, just as soon as Speaker Shanahan announces, late this week or the first of next the personnel of the standing committees. Today's sessions was the first of either house since Feb. 18th.

The rules adopted today are practically the same as those of last session the principal change being that the speaker is given the power to reserve any bill or resolution of general state importance, or in case of an emergency for consideration in committee of the whole house.

Majority May Change Rules.
A vote of seventy-seven members however, may compel reference of any measure to an appropriate committee. The new rules provide that a constitutional majority of seventy-seven members can change the rules at any time. Members are given three weeks in which to introduce bills. At the expiration of that period bills may be introduced only on Tuesday or by standing committees. Provision for a stenographic record of house proceedings is being considered and may be provided for later by an amendment of the rules.

Approximately 300 bills are in readiness for introduction in the house tomorrow. No effort will be made at this session of the legislature by the champions of woman suffrage to obtain the presentation to the votes of a constitutional amendment providing for full suffrage for women.

Mrs. Grace Wilbur Trout of Chicago, president of the Illinois Equal Suffrage League, was in Springfield today and announced that the league will support Governor Dunne's proposed amendment to the constitutional amending clause as well as the proposal for a constitutional convention. If either plan is successful the women will then work to obtain full suffrage.

Mrs. J. W. McGraw of Chicago, will be in Springfield during the remainder of the session as chairman of the legislative committee of the league.

Smeikal Heads Appropriations.
Representative Edward J. Smeikal of Chicago will be chairman of the house committee on appropriations. Announcement to this effect was made tonight by Speaker Shanahan. No other selections for committee assignments were announced by the speaker.

Governor Dunne was consulted by Speaker Shanahan regarding the selection of Mr. Smeikal for chairman of this committee and gave his unqualified approval of the choice. Mr. Smeikal succeeds Speaker Shanahan, who long held that position.

[CHANGING SEASONS]

Full soon the shadetrees will be green, the icebergs will be gone; and we shall push the old machine across the whiskered lawn. The furnace, in whose maw we've burned a thousand tons of slate, will have the rest it's surely earned, till Summer pulls its freight. The day grows long and short the night, and man may save his roll, nor crouch up for electric light what didn't go for coal. We'll leave the shovel in the bin, among the dust and slate and in the garden we'll begin to labor soon—and late. We'll plant the locust and the larch, in which the birds will sing, and bless the blooming blasts of March, which usher in the Spring. The trees which bear the luscious fruits, we'll guard from pests and snares, and gladly plant our ginseng roots, and groom our Belgian hares. Ah, life is life, when Spring arrives! To stir the scented soil we work our daughters and our wives, and boss them as they toil! 'Tis grateful to the soul, indeed, it soothes the nerves that ache, to watch the women sow the seed, and ply the hoe and rake. It cheers the heart of any man to sit around and smoke, while Julia Jane and Mary Ann plant spud and artichoke.

MRS. LYON'S ACHES AND PAINS

Have All Gone Since Taking

Terre Hill, Pa.—"Kindly permit me
to give you my testimonial in favor of
Lydia E. Pinkham's
Vegetable Compound. When I first
began using it I
was suffering from
female troubles for
some time and had
almost all kinds of
aches—pains in low-

could not sleep and
had no appetite. Since I have taken
Lydia E. Pinkham's Vegetable
Compound the aches and pains are all gone
and I feel like a new woman. I cannot
praise your medicine too highly."—Mrs.
Augustus Lyon, Terre Hill, Pa.

It is true that nature and a woman's
work has produced the grandest remedy
for woman's ills that the world has
ever known. From the roots and
herbs of the field, Lydia E. Pinkham,
forty years ago, gave to womankind
a remedy for their peculiar ills which
has proved more efficacious than any
other combination of drugs ever com-
pounded, and today Lydia E. Pinkham's
Vegetable Compound is recognized
from coast to coast as the standard
remedy for woman's ills.

In the Pinkham Laboratory at Lynn,
Mass., are files containing hundreds of
thousands of letters from women seek-
ing health—many of them openly state
over their own signatures that they have
regained their health by taking Lydia
E. Pinkham's Vegetable Compound; and
in some cases that it has saved them
from surgical operations.

10 CENT "CASCARETS"
STRAIGHTEN YOU UP

Tonight! Clean Your Bowels and
End Headaches, Colds, Sour Stom-
ach.

Get a 10-cent box now.

Turn the rascals out—till head-
ache, biliousness, indigestion, the
sick, sour stomach and bad colds—
turn them out tonight and keep them
out with Cascarets.

Millions of men and women take
a Cascaret now and then and never
know the misery caused by a lazy
liver, clogged bowels, or an upset
stomach.

Don't put in another day of dis-
tress. Let Cascarets cleanse your
stomach; remove the sour, ferment-
ing food; take the excess bile from
your liver and carry out all the con-
stituted waste matter and poison in
the bowels. Then you will feel
great.

A Cascaret tonight straightens
you out by morning. They work
while you sleep. A 10-cent box
from any drug store means a clear
head, sweet stomach and clean,
healthy liver and bowel action for
months. Children love Cascarets be-
cause they never gripe or sicken—

WRITES ABOUT

GOOSE FARM

Editor Journal:

Your readers may be interested in
my trip to the goose farm, where
W. H. Pirke & Sons, of Mansefield,
Ill., have fed the last year 25,000
geese, 6,000 sheep and now have
4000 geese and 200 head of cattle
on full feed.

He has his lots all under cover,
and a cement floor under all his
stock, to catch all the manure. He
keeps his floors well bedded with
fodder and straw. The cattle graze
up the stock with their feet what
they don't grind up with their teeth,
so it is easy to clean out.

When he hauls out manure he
scatters a little Tennessee Rock
Phosphate on it. He keeps a grain-
ery with a car load of it in, right in
his barn, so it is handy to scatter on
his manure.

He keeps shelled corn in self feed-
ers in goose pens and quite a num-
ber of open troughs scattered over
his feed pens, and once or twice a
day gives them fodder to pick over.
He says they do better on fodder
blades than any roughness he can
find.

I had the pleasure of helping him
unload 1100 geese while there. He
ships his geese from Arkansas to
New York, but has the privilege of
stopping the car a day or two at his
farm, where he unloads the poor
geese and puts fat geese in the place.

This 1100 I helped to unload we
drove out of stock pens at railroad
about 30 bushes of shelled corn as
soon as put in orchard, in troughs
and bins, so they could help them-
selves, with several barrel troughs
set on square boxes, so they can
drink all around the barrels. When
he fills the barrels he simply stops
the hole at a bottom; when the bar-
rels are full he stops the hole at top,
and takes cork out of bottom. This
keeps plenty of fresh water before
them all the time. He has runners
under his troughs and when empty
he hauls the barrel to his supply
tank with a horse, refills it and
takes it back. He has about 12 of
these barrels and many of the bar-
rels are made of galvanized iron, so
they do not go to staves; all an-
chored by 4 rods to trough.

He sows 1 bushel of rye to the
acre when he lays by his corn, and
feeds his sheep in barn of night,
and lets them run on rye in day time
as soon as it will do to turn them
in the field.

This rye is now about 3 inches
high, and he said he would get 3000
sheep about the last of March or
1st of April and feed on this rye
until the 1st to 15th of May; then
he would sell the sheep and disk up
the ground first, then plow it, and
disk it again, and harrow it, then
plant it to corn, and raise another
30 bushels to the acre, like he did
last year.

He also feeds quite a number of
horses. He has a shed 72x60 feet,
with mangers 2 feet deep, 2 feet
wide at top, 12 inches at bottom; all
around the wall, where he feeds fod-
der, silage and straw, and corn twice
a day, bedding with what is left in
mangers every night. If not enough
bedding he adds 2 or 3 bales of
straw. It is almost dark in the shed,
so they can't see to kick one an-
other, and they are sure looking well.
He has all his barns and sheds well
lighted with electric lights, and
pumps his water by electricity.

He is going to build another barn,
70 by 200 feet, to handle his sheep
in, as he says it pays to run sheep
on your corn ground on rye. He has
a large silo, and is going to build
another, it is funny to me, that only
those that have no silos condemn
them.

I have examined about all makes
of silos and I find any silo that
has a rough wall so the silage will
not settle down properly, has green
mold in it, which is very dangerous
to horses, and any silo that gets air
around the wall will have green
mold from where it gets air. The
wood stave silo is good for four to
five years; then I find it is neglected,
and dries up, between the knots,
more than where the knots are and
gets air, and all of the old ones
have this green mold in them. The
best silage I found was on Mr. L.
Seases' farm at Sullivan, Ill. He had
a glazed cement silo with one-inch
square rods every 12 inches, stand-
ing perpendicular, and a one-fourth
inch rod every 12 inches, as a band.
The walls were smooth as glass in-
side and the silage was a perfect as
the day it was put in; looked green
and nice and no green mold in it.
I think if any one is going to build
a silo, do not take any agent's word
for it and wait until they come
along and talk you into buying their
make of a silo, but go over this
country as I do, and see them all;
then buy what you wish. As it is
no small matter getting a perfect
silo.

If the tile blocks could be laid so
the wall were as smooth as the
tile itself, it is then it is a good one,
but they get careless, and build
rough joints, so I think it best to
mould your own silo, with good
cement, and glaze them on the in-
side.

And while you are buying the ce-
ment, get enough to floor every
barn and shed on the farm, so you
can catch all the urine, and scatter
on your wheat or oats. A thin coat
will help you get 10 bushels more
to the acre. Use up all the wheat
straw you can get for bedding and
if you have no straw use corn
stalks. The stock will tramp them
up so you can clean out your shed
it bedded on cement floor, also
keep your hogs healthier, using fod-
der for bedding.

CANDIDATE FOR COMMISSIONER

In presenting myself as a candidate for Commissioner of the City of Jacksonville at the primary election to be held on Tuesday, March 2, I do not ask the support of the voters because I am a union man or because I have been endorsed by the Trades and Labor Assembly. While I feel that all members of unions in the city, knowing me as they do and knowing the method by which I am the only candidate receiving the endorsement of the central body, should give their support to me, at the same time I fully realize that union membership or endorsement of itself does not necessarily qualify one to serve as Commissioner.

The delegates to the Trades and Labor Assembly, knowing that they were likely to be called upon for endorsements to such an extent as to render all endorsements valueless, determined upon a sort of elimination competition by which the candidates receiving the greatest number of votes from union members should be the only one to receive the endorsement by the assembly. I was fortunate enough to be this candidate.

I do not, however, expect to be elected to office solely as the representative of union labor, but my intention, if elected, is to represent ALL the people to the best of my ability. While I am a firm believer in the principles of unionism and have devoted much time to advancement of the ideals of organized labor, I fully appreciate the fact that the business of the municipality cannot successfully be conducted in the sole interest of any one group of citizens.

I was born in Jacksonville and have always lived here, receiving my education in the public schools of this city. When 18 years old I began work as an apprentice printer and have devoted all my life since that time to the printing business. During the last twenty years of this time my work has been largely with machinery. I am a member of the Typographical Union, the Royal Arcanum and the Red Men.

I believe in honest and efficient service, and any investigation of my record will prove that I have lived up to that belief. I feel that I am capable of serving the city as commissioner and I solicit the support of the men and women of Jacksonville.

Meeting Them Face to Face

Harry Smith.

We introduce today Mr. Harry
Smith, chief clerk of the Jack-
sonville Railway & Light Company.

Here is the gentleman who
meets you at the front window of
our office. He takes your money
and receives your complaints and
suggestions. He tells us that while
there is no particularly noticeable
increase in the amount of money at
said window he can report a de-
crease in the number of complaints.
All of which is encouraging to both
Mr. Smith and the company. How-
ever, he states that the mere pro-
cess of taking in money becomes
monotonous at times and he still
welcomes complaints from our pa-
trons and assures prompt action on
the same.

Mr. Smith is a native of Jacksonville and has been connected with
this company for over 10 years. He is considered an excellent utility
accountant and as chief clerk he is one of the valuable members of the
local organization.

A deep, dark plot was concocted some time since to lure him
from our family circle by giving him an appointment as deputy sheriff.
The call to public office was heeded, however, and he preferred to
stay with us, for which we are thankful.

This is introduction No. 6 in the "Meeting Them Face to Face"
series. Look for the next one and become better acquainted with

Mr. and Mrs. W. T. Henry visited the county seat Saturday.

Joseph Fanning of Jacksonville attended the funeral here of Mrs. Talitha Fanning Saturday.

F. O. Tribble has been plastering the new house of Justus Hart this week.

FACTORS INFLUENCING THE QUALITY OF VEGETABLES.

A number of factors may influence the quality of vegetables as they appear upon the table. The efficiency and training of the cook who prepares and serves the vegetables are potent factors in determining their palatability and wholesomeness. Cabbage cooked by the ordinary hotel or boarding-house method is far inferior in appearance, texture, flavor, and digestibility to the same vegetable cooked in a proper manner. There is also an art in the cooking of carrots, parsnips, cauliflower, turnips and eggplant; and it is probable that these vegetables would rise in popular favor if they were properly cooked by a larger proportion of the people who try to serve them.

The freshness of vegetables has a direct bearing upon their quality, though this factor has much more marked influence in the case of some vegetables than others. Certain vegetables lose moisture rapidly after gathering, and unless precautions are taken to keep them fresh, they soon become so badly wilted that their characteristic crispness is largely destroyed. Radishes and lettuce lose their distinctive value as salad materials if they become badly wilted. Summer cabbage, especially when used for slaw, and string beans are more acceptable if used before they wilt.

In the above mentioned vegetables it is chiefly the texture which is affected by the staleness of the product. In sweet corn and green peas, however, there is a marked deterioration in flavor if these vegetables are allowed to stand even a few hours after gathering. To be of the best possible flavor, sweet corn should be served within an hour after it leaves the stalk.

Strictly fresh vegetables of the most perishable kinds cannot readily be obtained on the ordinary market. This renders it imperative for the person who desires perishable vegetables of the high quality to grow them upon his own grounds. One great advantage of the home garden over the grocer's stall as a source of the vegetable supply lies in the superior freshness of the product from the former source.—By J. W. Lloyd, University of Illinois.

SINCLAIR.

Mr. and Mrs. Robert Metch left Monday for their new home near Arvella, N. D. Their household goods were shipped Sunday. Floyd Metch accompanied the car.

J. H. Dial spent Saturday and Sunday with his mother near St. Elmo. He reports her recovering in a satisfactory manner from her recent illness.

Born to Mr. and Mrs. Edward Tendick Friday, Feb. 26th, a daughter.

Robinson's household effects came Wednesday and were removed to the Harrison farm east of here.

Casteens moved out of the Fox house and were taken to Woodison on the local.

Colson moved in the same house and will clerk in the Fox store.

John Moor who recently moved to St. Louis, gave his wife's father, N. B. Fox a short call Friday.

Mrs. J. C. Swain visited yesterday and left last week.

N. B. Fox mourns the loss of his old driving horse, Carter. He gave him a decent burial.

James Ringman is able to knock around the house a little after his severe attack of rheumatism.

Mrs. Hollie Swain has set her wooden hen.

ADDITIONAL HEALTH SAFEGUARDS FOR THE TRAVELING PUBLIC.

Passengers on interstate vessels may hereafter drink freely on the water supplies thereon without fear. Secretary of the Treasury W. G. McAdoo is sending out today an amendment to the Interstate Quarantine Regulations which prohibits such vessels from serving to their passengers water from the lake or stream over which the vessel is being navigated unless its purity is assured. The text of the amendment reads as follows:

"Common carriers operating vessels in commerce between the several states and territories or the District of Columbia, for passengers in interstate traffic, shall not supply for the use of said passengers any water taken from a lake or stream over which the vessel is being navigated unless the same is certified by the United States Public Health Service or the State or municipal health authority within whose jurisdiction it is obtained as conforming to the bacteriological standard for drinking water promulgated by the Secretary of the Treasury under date of October 21, 1914; Provided, That water in regard to the safety of which a reasonable doubt exists may be used if the same has been treated in such manner as to render it incapable of conveying disease, and the fact of such treatment is certified by the aforesaid health authority or by the Surgeon General of the United States Public Health Service or his accredited representative."

This is a part of the general scheme which the United States Public Health Service is putting into operation for the protection of the health of the traveling public. Other regulations have been promulgated in the past prohibiting the use of common drinking cups and common towels upon interstate trains and at depots, and requiring the furnishing of pure water to passengers and employees of common carriers, and requiring the posting of warning notices upon receptacles containing impure water at or near railway stations where it might be used for drinking purposes.

Inasmuch as over sixteen million people travel every year on the Great Lakes alone, these regulations are having a most important effect upon the public health. Not only do they prevent passengers from contracting disease and carrying it to their homes, there is spread to other people, but also because such regulations have a decided educational value. As a result of the regulations requiring the certification of water supplied on trains, many of the smaller cities of the United States have made radical improvements which are a necessary preliminary to the issuance of a certificate have done so.

Fact that many sources of water supply hitherto regarded as above reproach have been found to fall far below the minimum standard of water purity promulgated by Secretary McAdoo on October 21, 1914.

CLAIM BORDER SHOOTING WAS A MISTAKE.

Welland, Ont., Mar. 2.—That the border shooting in which Walter Smith of Fort Erie, an American, lost his life on December 28, was the result of an accident is expected to be the claim of the four Canadians who will be tried here this week on charges of manslaughter. The four men called for trial today are:

Thomas W. Delaney, a provincial constable.

Archie Kay, corporal, 44th Canadian Infantry.

Edmund Macintosh, private, 44th Canadian Infantry.

Leslie Kingman, private, 44th Canadian Infantry.

The four men were arrested at Fort Erie on January 8th, on warrants issued at the instance of the Attorney General of the Province of Ontario, charging them with manslaughter in connection with the death of Walter Smith and the wounding of Charles Dorsch, another American. The Americans were hunting ducks on the Canadian side of the Niagara river, in alleged violation of the Dominion's game laws.

The incident assumed the proportions of an international affair when the United States Government sent a formal note of protest to Great Britain requesting the punishment of those guilty of the shooting. The men explained the shooting by declaring they were merely trying to scare away the duck hunters.

The Canadian government has made full reparation to the family of the dead man, Walter Smith, giving \$10,000 to his parents. To Dorsch, who was wounded, the Canadian government gave \$5,000. The terms of settlement were arranged by Sir Joseph Pope, under secretary of State for External Affairs of Canada, who visited Washington to express the regret of the Canadian government over the shooting.

LOVE COOLS IN 15 MINUTES.

Chicago, March 2.—According to Angel M. Broshi, a teacher of languages, his wife deserted him fifteen minutes after the wedding ceremony. He told his story in Municipal Court last week, but Judge Sabath was puzzled when his wife testified that her husband was all to blame and she had obtained a warrant for his arrest because he deserted her. And so Judge Sabath scratched his ear and held the case over until today. Broshi said he fitted up a flat but his wife would not live with him. The court of domestic relations is trying to bring about a reconciliation.

CARD OF THANKS.

We wish to thank the many friends and neighbors who so kindly assisted us during the illness and death of our son and brother also for the many beautiful flowers.

Illinois Railroads to the People—No. 4.

Facts Behind the Fare Question

"The cost of operation of passenger service is so great as to leave nothing for profit."—Louis D. Brandeis, Counsel for Interstate Commerce Commission.

Higher wages, safety regulations, better equipment, improved service—these, Mr. Brandeis says, make the great cost of operation. They strike Illinois roads particularly hard. No state has better railroads, higher wages, more safety, better trains. No state has lower fares. Several states have denser population; there's the nub of the situation.

Population Governs Traffic—Density of population makes volume of travel. The greater the volume, the lower the cost of handling. That is a law of trade.

Passenger fares, therefore, ought to be lowest in the more densely populated states. They are not. Here is the reason why.

Legislatures can—and have—reduced maximum fares by law 33 1/3 per cent. They have not—and cannot—keep down operating costs by law, or make more people travel and increase the revenue.

Illinois and Other States—The following table shows population density of seven eastern states and of Illinois:

| State | Per square mile | Population | Per mile of railroad |
|---------------|-----------------|------------|----------------------|
| Rhode Island | 543 | 2446 | 2446 |
| Massachusetts | 441 | 1665 | 1665 |
| New Jersey | 359 | 1991 | 1991 |
| Connecticut | 245 | 1181 | 1181 |
| New York | 204 | 1141 | 1141 |
| Pennsylvania | 181 | 704 | 704 |
| Maryland | 134 | 941 | 941 |
| Illinois | 106 | 491 | 491 |

Yet passenger fares in all these Eastern states of denser population are higher than in Illinois, because the fare question has been thrashed out there.

Two-Cent Laws Elsewhere—New York passed a 2-cent-a-mile law. Gov. Hughes, now Justice of the United States Supreme Court, vetoed it and it has not been revived.

Pennsylvania tried—and abandoned it as unreasonable. In densely populated Rhode Island, Massachusetts and Connecticut, passenger fares have lately been restored to 2 1/2 cents and 3 cents a mile on most of the lines, after careful consideration, and applications for further restorations are pending.

A PLEASANT GATHERING.

A short time since Mrs. S. Allen entertained a very pleasant company at her home four miles east of Interberry. The affair was in the nature of a sewing and some twenty garments were made.

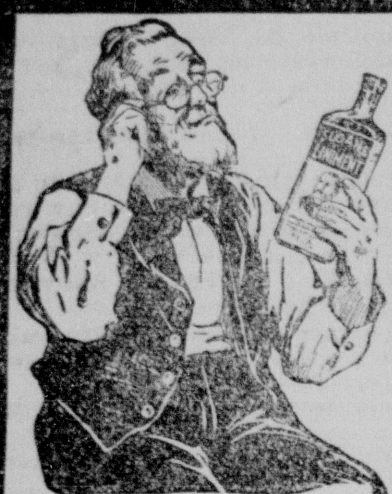

An elegant dinner was served and in this Mrs. Allen was assisted by Mrs. Herbert Waggoner. A delightful time was enjoyed by every one present. The guests were: Mrs. Frank Hopkins and daughter, Mrs. Thomas Newell and daughter, Mrs. Homer Clark and daughter, Mrs. Earl Beavers and son, Mrs. William Hull, Mrs. Herbert Waggoner, Misses Emma and Mabel Johnson, June Wankle and Mildred Vines.

Seeing Is Believing

Rheumatism

Just put a few drops of Sloan's on the painful spot and the pain stops. It is really wonderful how quickly Sloan's acts. No need to rub it in—laid on lightly it penetrates to the bone and brings relief at once. Kills rheumatic pain instantly.

Mr. James E. Alexander, of North Haverhill, Me., writes: "Many strains in my back and hips brought on rheumatism in the winter of 1914. I had it so bad one night when sitting in my chair, that I had to jump on my feet to get relief. I at once applied your Liniment to the affected part and in less than ten minutes it was perfectly easy. I think it is the best of all Liniments I have ever used."

Baby of Future is Considered

Much thought has been given in late years to the subject of maternity. In the cities there are maternity hospitals equipped with modern methods. But most women prefer their own homes and in the towns and villages must prefer them. And since this is true we know from the great many splendid letters written on the subject that our "Mother's Friend" is a great help to expectant mothers. They write of the wonderful relief, how it seemed to allow the muscles to expand without undue strain and what a splendid influence it was on the nervous system. Such helps as "Mother's Friend" and the broader knowledge of them should have a helpful influence upon babies of the future. Science says that an infant derives its sense and builds its character from cutaneous impressions. And a tranquil mother certainly will transmit a more healthful influence than if she is extremely nervous from undue pain. This is what a host of women believe who used "Mother's Friend" during their period of expectancy.

These points are more thoroughly explained in a little book mailed free. "Mother's Friend" is sold in all drug stores and highly recommended for its timely usefulness, its safety and the real help it affords. Ask for it at the store and write us for the book. Bradfield Regulator Co., 511 Lamar Bldg., Atlanta, Ga.

The effect of this splendid external application is an expression of the thousands of women who have successfully used it and recommended it through two generations.

The oyster banquet given by the "Invincibles" of the Baptist Sunday school on Friday evening was a great success. Messrs. J. M. Litter and J. C. McFadden were chief cooks, backed up by a corps of good helpers, and all combined made a perfect team; their finished products were much sought after by the lovers of good things to eat.

Mrs. Durrell Crum of "Allegretto" the noted pianist of Litterberry, has purchased a fine Steinway piano; all first class musicians, are aware of the fact that the Steinway is one of the best pianos made, and we are glad Mrs. Crum has so excellent an instrument. She has been using another make of piano but was not fully satisfied with it, hence the new purchase. Her friends are wishing her much pleasure in the use of this piano.

Rev. C. G. Cobb of Brimfield, Ill., filled the Baptist pulpit Sunday morning and evening. Report for the Sunday school on this day is, attendance seventy one, offering \$2.57 which speaks well for this time of the year. S. H. Crum gave the following questions to the school to be looked up and answered next Sunday:

How long did the Philistines keep the Ark?

How did they send it away?

At what cities did it stop?

Who came to Samuel to ask a King?

What the answer?

What is said of a piece of money?

What cannot the value of this money be known?

Is it right to inquire of a familiar spirit?

Little Miss Hazel Becker of Hackberry Heights, electrified the Sunday school Sunday morning by singing a pretty solo, "I want to be a man like Washington," playing her own accompaniment in a very nice way. This was an "extra" for her class.

THE GERMAN WOUNDED.

Berlin, Feb. 6th. (By wireless to Sayville, L. I.)

The Germans are terrifically systematic about their care of the wounded. All their men found on the battlefield receive a "first aid dressing." Each is tagged with a card, which indicates whether he is badly hurt or not. From the battlefield the wounded men are gotten back to the field hospitals or to headquarters. A man may be badly wounded and yet be back on the firing line in three months. Good pure blood is what helps the soldier through his wounds heal easily after antiseptic dressings. It is well for everybody to put the blood in good order. Don't trifle with health! Its too precious a possession.

It is trifling to neglect the little every-day kind of ailments. It is trifling too, to take medicines of unknown or doubtful ingredients. If your stomach gets out of order, your food is not digested and, of course, your blood gets thin and you become weak, ready to be a prey to the disease germs always ready to attack the run-down and the anaemic. If your liver can't do its work, your blood becomes impure and many troubles follow. If your bowels are irregular, poisons accumulate in your body. Dr. Pierce's Golden Medical Discovery (in tablet or liquid form) helps the stomach to digest food properly, strengthens the liver, regulates the bowels. As a consequence you are vigorous, full of snap and life! Fifty years ago Dr. Pierce discovered that a glyceric extract of Golden Seal and Oregon grape root, of queen's root and bloodroot with black cherry bark would aid all the digestive organs to work as Nature intended they should. Thousands have found that the "Golden Medical Discovery" he then introduced to the world has restored them to health when suffering from stomach and liver troubles. Now is the time to try this famous remedy.—Adv.

MARKET LETTERS

CHICAGO GRAIN MARKETS.
Chicago, March 2.—Wheat—
Green wheat, Walter Bros., U. S.
wheat, Chicago, reports the estimated
receipts for Monday, March 1:
Wheat—17,000.
Oats—12,000.
Sheep—10,000.

Early the market was active and
firm with shipping being free, buyers
and that was the main factor
for the market opening up reason-
ably early. Later it was reported
that the state of Pennsylvania into
other states and with that report
the market had quite a reaction and
sales late in the day were 10 to 15c
lower. The medium grades were in
good supply and the slow and low-
er market was more noticeable on
such than good to choice beaves. A
liberal number of common to medium
weights seemed to be from muddy
feed lots indicating that they had
not been doing very well in the
weight gaining class. Some 10 car
loads had quality and finish to
sell at 9c to 9 1/2c. Large car
loads averaging 1600 pounds and
one car load average weight, 1550
pounds, reaching 9 1/2c being the
best reported today. A fair to good
kind or different weights \$8.25 to
\$8.75 and a large list of sales \$7.50
to \$8.00.

Butcher stock sold at strong prices
where fresh and grade was attrac-
tive, but closed weak and lower.
Dulls steady. Calves in poor de-
mand and lower.
Inferior to rough beef steers—
\$5.50 to \$6.25.
Common to plain—\$6.25 to \$7.00.
Plain medium warmed ups—
\$7.15 to \$8.10.
Good to choice corn fed—\$8.15 to
\$8.75.
Good to prime heavy heaves—
\$8.75 to \$9.15.
Common to fair—\$7.25 to \$8.15.
Butcher stock—\$8.25 to \$7.00.
Heifers—\$4.85 to \$7.25.
Later reports of Pennsylvania in-
sulating the movement order as relat-
ing to shipments there the state
was contradicted.
Prime and fancy quoteable up to
\$8.00.
Bulls—\$5.00 to \$6.75.
Common to good weight calves—
\$5.00 to \$7.50.
Fair to good vealers—\$8.25 to
\$9.25.
Choice to prime—\$9.50 to \$10.00.
The hog market was 5c higher
than Saturday's average with a top
of 80c weights around 150 pounds.
Mixed packing—\$6.45 to \$6.62 1/2.
Mediums and butchers—6.62 1/2 to
\$6.70.
Poor to good heavy packing—
\$6.30 to \$6.52 1/2.
Rough heavy—\$6.00 to \$6.25.
Light weights—\$6.55 to \$6.70.
Select packing and shipping—
\$6.55 to \$6.80.
Pigs and throwouts—\$2.50 to
\$6.80.
With another run of sheep and
lamb below the requirements, of
the trade, sheep and lambs were
advanced in price as compared with
the market last Friday, and at the
highest point of the season. Lambs
reached \$9.85. Yearlings of aged
wethers offered. Yearlings up to
\$5.50.

EUROPEAN WAR NOTES

London, March 2.—(8:57 p. m.)—A despatch to Reuters' Telegram company from Amsterdam says that in all the Belgian towns along the Dutch frontier posters are displayed calling upon the populations to prepare for the billeting of a great number of German troops. This information is contained in a telegram received from Maestricht. The despatch adds that at Liege twenty thousand troops are expected, at Siegen, five thousand and at Wandre, eighteen thousand.

London, March 2.—(7 p. m.)—The officers and crews of British warships present at the destruction of any hostile ship will share in the distribution of prize money calculated at five pounds sterling for each person on board the enemy vessel at the beginning of the engagement. This order in council was promulgated today.

Washington, March 2.—A statement issued by the German embassy here today announced that the American Steamers Evelyn and Carib recently sunk by mines in the North Sea, were lost because they failed to heed "advice contained in the notices to mariners."

"The American ships Evelyn and Carib were lost in the North Sea, because, in opposition to the advice contained in the notices to mariners they took their course along the east Frisian Islands.

"According to statements made by the captain of the Evelyn this course was followed upon advice by a British man-of-war.

"The imperial government strongly advises all ships sailing from the Dutch coast to the Bay of Heligoland to take their course from Terzelling Lightboat, to about the 55th degree, then to Listertief, where they are to await a German pilot."

London, March 2.—(8:35 p. m.)—A statement given out by the Official Press Bureau this evening says:

"The following was officially issued at Cairo today:

"Since the last official communication there has been nothing fresh to report. There are no signs of any renewed advance on the part of the Turks.

"Reports from Syria show that there is no likelihood of any famine. Prices of foodstuffs have risen but stocks are fairly plentiful in most districts. Imported articles naturally are very dear.

"The relations between the Mohammedan and Christian elements continue excellent."

London, March 2.—(6:47 p. m.)—A Central News despatch from Amsterdam says that there has been received there a report from the Austrian army headquarters reading as follows:

"Despite repeated attacks, the aspect of the battle on the Dneister (a river in Galicia), is favorable to us. The Russians lost ground over and over again.

"In the Carpathians especially to the west of Uzok Pass, fighting is proceeding with extreme stubbornness.

"The Austrians have gained important successes, the results whereof will soon make themselves felt. The Russians for a long time have been on the Galician side of the Carpathians."

Berlin, March 2.—By wireless to Salville, L. I.—The activities of the forces on the extreme north and south of the eastern battle front are steadily acquiring greater importance. The Russians and the Germans and Austrians appear to be concentrating their efforts in these regions. Reports from the German and Austrian military authorities indicate that the Russians are bringing up reinforcements north of the Vistula and Narew line of fortifications and also in Southern Galicia. These reinforcements are so extensive that the Russians have been able to assume the offensive at different places. Whether after taking Przemyśl, the Russians have contented themselves with holding it or are advancing is not yet known here. It is regarded as improbable, however, that a Russian column would be able to penetrate any great distance from Przemyśl. Operations in the Carpathians are proceeding slowly with bitter fighting.

Having made gains in the Arzonne and near Malinour the Germans appeared to be resuming their operations around Verdun.

Mr. and Mrs. David Dick of Chanderdville were visitors in the city Tuesday.

ALBERT TURNER FELL TWENTY FEET OUT OF GALLAHUE BLOCK

Was Washing Windows in Second Story When He Lost His Balance—Man Escapes Injury.

Albert Turner, while engaged in washing windows in the office of Clarence L. DePew on the second floor of Gallahue block, Tuesday afternoon, at about four o'clock, made a mistake while on the window sill on the outside of the window and fell outward striking upon an electric wire, which is stretched through the alley off the east side of the building. With rare presence of mind he grasped with both hands the insulated wire and recovered his perpendicularity and when he had steadied himself in midair he dropped to the paved driveway below, a distance of approximately 20 feet. Alighting on his feet and one hand, he was in a few moments ready to go up stairs and resume his work.

Two gentlemen who witnessed the catastrophe ran to his assistance, and assisted the man up the stairs. Dr. Norris who had been called by phone arrived about the time the man had returned to the second floor, but Turner declared there was nothing he could do for him, as he was not injured in the least. To the reporter he stated that he struck his hand when he fell and it was painful him, as was his side, but that it was occasioned by the jar and did not amount to anything. The man was a tourist, who said his name was Albert Turner, and that his home at one time was Memphis, Tenn. When asked what his means of livelihood was said that he was a professional window cleaner.

He certainly had a close call and was fortunate to have his wife about him when he grabbed and held on to the wire when he fell.

ILLINOIS WILL ENTER TOURNEY

COACH HARMON AND MEN LEAVE THURSDAY MORNING.

Intercollegiate Basketball Tournament Will be Held in Peoria March 5, 6 and 7—One Hundred and Ninety Entries.

The Illinois Intercollegiate basketball tournament will be held in Peoria Thursday, Friday and Saturday of this week and Coach Harmon expects to leave Thursday morning with his string of basket tossers to represent Illinois college. All together one hundred and ninety athletes have entered and the tourney is expected to be one of the hardest fought struggles held for some time. Coach Harmon has had his men in hard practice and while not in the best of condition he expects to take along enough second string men to relieve the regulars if some contests prove easy.

Illinois' Record.

Illinois' record thus far the last season follows:

Illinois . . . 18; Millikin . . . 31
Illinois . . . 16; Bradley . . . 13
Illinois . . . 38; Shurtleff . . . 11
Illinois . . . 34; Wesleyan . . . 23
Illinois . . . 25; McKendree . . . 20
Illinois . . . 18; Millikin . . . 22
Illinois . . . 24; Lombard . . . 22
Illinois . . . 20; Hedding . . . 36
Illinois . . . 13; St. Louis U. . . 29
Illinois . . . 9; McKendree . . . 31
Illinois . . . 35; Shurtleff . . . 19
Illinois . . . 26; Hedding . . . 21
Illinois . . . 28; St. Louis U. . . 22
Illinois . . . 25; Carthage . . . 11

Illinois . . . 329; Opponents . . . 311
From the above figures it will be seen that Illinois has played fourteen games and lost five and has eighteen more points for the season than their opponents. Just where Illinois will stop in the tournament is problematic. On Thursday night Illinois will meet Wesleyan at 9 o'clock. This will undoubtedly be a hard fought game. In the previous contest Illinois won from Wesleyan 34 to 23. Since that time, however, Wesleyan has strengthened and is accounting on a victory from Illinois.

According to the schedule if Illinois wins from Wesleyan she will play the winner of the Augustans-Lincoln game on Friday evening at 9 o'clock. If successful in this game Illinois will play the winner of the combination games of Hedding, Bradley, Normal, Millikin, and Eastern Normal. Millikin has practically two teams to draw from and is bidding strong for the championship honors. Some of the dopists have figured it out that Millikin and Illinois will figure in the final honors.

Millikin is making big preparations for the tournament and a parade of students and others will be a feature Thursday morning.

NEW STATE BUILDING NOW SEEMS CERTAIN

Present General Assembly Likely to Make Provision—Purchase of Land Adjoining State House is Postponed.

Springfield, Ill., Mar. 2.—That the present General Assembly will make provision for a new state building to be added to the group at Springfield is practically certain. A plan, not only for the new building, but also for the further needs of the state in the future, is now being worked out and will be placed in the hands of the lawmakers within the next few weeks.

A special committee, representing several state commissions that are interested in the project, has the matter of capital grounds and buildings under consideration. The committee includes Lewis G. Stevenson, secretary of state and a member of the State Building Commission; State Senator Kent W. Keller of the Illinois Centennial Commission; Former State Senator M. S. Magill, Jr., and Architect Martin Noelle of the State Art Commission; and Doctor Otto L. Schmidt of Chicago, president of the State Historical Society.

The commissions named have adopted a plan which contemplates the state's acquiring a large tract of land adjoining the present capitol grounds on the south, and the landscaping of the same into a park-like setting for additional state buildings as the development of the state will require from time to time. It is hoped to have the first of these buildings ready to dedicate during the Illinois Centennial celebration in 1918.

It is urged that by securing the land now, while it is occupied by only a few unpretentious dwellings, great economy can be practiced in behalf of the state, as the value of the property in question is considered absolutely certain to increase rapidly even if no consideration is given to the likelihood of there being erected on the tract more buildings that would have to be condemned and paid for in event the state waited until a later date to purchase.

Samuel Campbell and daughter, residing west of Winchester were traders in the city yesterday. Mr. Campbell has a hard time to get to this place. This time he drove eleven miles to Bluffs and took the early morning train and once he went to Winchester, took the train for Chapin and reached this city in the middle of the afternoon, left in the evening and reached Winchester next morning at four.

WOMAN VOTERS MAKE DECLARATION AGAINST RIDING TO THE POLLS

Prefer to Walk and Remain Independent According to Resolution Adopted at Civic League Meeting—Mrs. Helen Stewart Gives Address.

Voters belonging to the Jacksonville Woman's Civic League entered a protest against the unrestricted use of carriages and automobiles on election day, Tuesday afternoon at a meeting of the league at the public library. A ride to the polls, it was mentioned, may often come to a subtle form of bribery, and so far as possible woman voters will avoid the conveyance in the employ of candidates, it was declared. So expensive has this practice become that some candidates have expressed disapproval and it may be that less free rides will be available at the approaching elections than custom would indicate. The meeting Tuesday afternoon was an enthusiastic one, with Mrs. Helen Stewart of Chicago as the speaker. Mrs. Stewart is secretary of the Illinois Equal Suffrage association and as a citizen of the 13th ward helped put out of office Alderman McDonald, one of the "grey wolves" of the Chicago city council in the election last last spring.

Mrs. Stewart spoke highly of the Jacksonville league and its rank among the two hundred similar organizations throughout the state. In Chicago civic leagues have been formed in thirty-three out of thirty-five wards and all are pulling together to better city conditions. She mentioned woman's work in Lincoln where the commission form of government has just been instituted and called attention to the coming fight in Freeport where the two women's organizations are backing a list of good government candidates. The State Suffrage association has a three-fold office, Mrs. Stewart said: to secure the full franchise for women, to improve local conditions and to work for a constitutional convention and better state laws.

MORTUARY

Thompson.

Word has been sent Barlow McIntyre of this city of the death of the venerable Peter D. Thompson at Humboldt, Nebraska. Mr. Thompson was living with his son, A. W. Thompson at the time. He lived in the northeast part of the county and had many friends in the vicinity of Prentice and his acquaintance-ship reached to New Berlin. He went to Nebraska fifty-five years ago. A local paper contains the following:

"Peter Downey Thompson was born in Morgan county, Illinois, May 2, 1837. On the 3d day of July, 1867, he was united in marriage to Margaret Jane Coons, to which union five children were born: Allie W. Howard G., Minnie L., Sarah Ellen and John B. Thompson. Sarah Ellen died Dec. 12, 1880 at the age of 8 years, and John B. died Dec. 8, 1884, at the age of 4 years. Deceased was a resident of Illinois until the year 1889, when he moved to a farm near Stella, and two years later in 1891, moved to a farm two miles east of Humboldt. He became a resident of Humboldt in 1897, and since the death of his wife, which occurred Aug. 24, 1910, deceased has made his home with his son, A. W., from where funeral services were held on Tuesday, February 23, conducted by Rev. Hill, of the Christian church, and the remains were interred in Prospect cemetery, seven miles northeast of Humboldt. Besides the children deceased is survived by one sister, Mrs. M. A. Shue of Delta, Colo., who was because of sickness unable to be present at the last sad obsequies. Mrs. Maggie Thompson, a sister-in-law, and her daughter of Chicago were present. Mr. Thompson united with the Christian church in 1886."

One of the prosperous missions of the city is the Sunday school fostered by the First Baptist church, of which Elbert De Witt is the efficient superintendent. His father is the faithful teacher of the young men's bible class. The revival just closed at the Baptist church had been a great impetus also to the Sunday school and many were brought into the church during that time.

**HIGH JINKS PLEASED
BIG SPRINGFIELD AUDIENCE**

Played There at the Chatterton
Tuesday—Comes to the Grand To-
night.

Manager Johnson of the Grand Opera house last night received a phone message from the manager of the Chatterton in Springfield stating that the High Jinks company staged one of the best shows seen in Springfield this season. The big audience in the capital city was delighted and the manager there gave the company his unqualified endorsement. A performance of more than unusual merit is therefore certain for Jacksonville playgoers to-night.

The plot of "High Jinks," a musical jollity for which Arthur Hammerstein is responsible, concerns itself with a magic perfume guaranteed to create general hilarity. This plot is thickened by the introduction of an irate Frenchman, a wandering grass-widow, and a certain doctor whose amiable disposition prevents him from resisting the embraces of a fair female patient under the influence of the perfume. When the doctor, to appease the Frenchman whose wife he has kissed, agrees to introduce his own wife, that she in her turn may be kissed by the Frenchman, a substitute is deemed necessary. A friend who always does the wrong thing at the right time further complicates the middle of fun by introducing a professional dancer to act as the substitute. The hilarity mounts higher and higher as the complications become more and more tangled. Throughout it all there are freely sprinkled catchy melodies, and a pretty chorus of lively and jovous girls adds to the liveliness with song and dance and laughter.

TRINITY NOTES.

The guild is doing good work holding weekly meetings preparing for an Easter sale. The Auxiliary is holding interesting mission meetings monthly. At the February meeting Mrs. A. J. Ward read a most able and interesting paper on "Russian Missions in Alaska," and the relation of the two churches, Russian and American. The next meeting will be held Friday, March 5 with Mrs. Andre, 233 West College avenue.

The Rector's Footguards will meet for instruction on the church and the services of the altar Wednesday evenings in the parish house. Instruction, Bible-work and a little athletics make up the evening. The meetings promise to be interesting and profitable. The rector's courses of sermons during lent are arousing interest. The Sunday morning sermons on the "Fruits of the Spirit" are enjoyable and instructive as well. During lent the singing is entirely congregational and the change from a formal choir is certainly conducive to heartiness. Trinity is not afraid of experiments. The Friday evening addresses on "Beyond the Gate," or Life after Death are proving very helpful to all those who are privileged to hear them. Thursday evenings the rector has put into effect special plans for reaching people on the outskirts. Thursday he will speak at the West Mount school.

**ILLINOIS LITERARY SOCIETIES
PREPARE FOR JOINT DEBATE**

Phi Alpha Team Chosen Last Night To Meet Sigma Pi Monday Evening, March 22—Will Discuss Status of Labor Unions.

Phi Alpha Literary society in session last evening chose Ray H. Bracewell, Thomas Mangner and Robert Nesmith to meet the Sigma Pi debaters Monday evening, March 22, in the annual inter-society contest. The joint debate will be held in Jones Memorial building with Edward Bullard, Clifford H. Dixon and Clay Apple representing Sigma Pi society. The Sigma Pi debaters were chosen several weeks ago. Harlan Williamson was named their alternate and Ray Berry is the Phi Alpha alternate debater. The question is, "Resolved, that labor unions be exempt from the Sherman Anti-Trust law, constitutionally conceded," and the sides will in all probability be chosen this week.

Phi Alpha society carried out a short program at Beecher hall last night before the preliminary debate. Paul Towne read an essay and Harold Perbix gave "The Prince of Peace" and Arthur Mendonsa "The Great Issue" as declamations. "Deforestation" was the title of the orator, Arthur Gustafson and "The Masque of the Red Death" was given by the select reader, Henry Deterding. Lucius S. Smith gave an extemporaneous talk on points of excellence in American literature. Mangner Nesmith and Berry were affirmative and John Irwin, Paul Watkins and Ernest Rutherford were negative debaters in the preliminary debate.

Sigma Pi Program.
Sigma Pi society of Illinois college gave the following program last night:

Declaimers:
Jackson—"Gipsy Wonder."
Bray—"Spartacus to the Roman Emperors."
Foster—"The Last Roll Call."
Reader:
Harry Pierce—"Medley."
Essayists:
Staley—"Chewing Gum".
Extemporizer:
Henry Caldwell—"The Shakespeare Play."
Debate—Resolved, That labor unions should be exempt from the provisions of the Sherman Anti-Trust law. Affirmative, Dixon, Bullard and Apple; negative, Williamson, Alexander and Capps. The president awarded the debate to the negative.

OBERMEYER WINS TROPHY
Many Marksmen Take Part in Handicap Events Tue-day.

Obermeyer, with a handicap of 25 and 76 hits out of a possible 100, won the sterling silver spoon offered by the DuPont Powder Co. yesterday afternoon at the Nichols Park Gun Club shoot. The day was ideal and the shoot was accounted a success in every way. The club is planning a big shoot for March 18, when there will be offered for competition the Fred Gilbert Cup. For the trophy the scores (hits, handicaps and total points) were: Robertson, 79-5-84; Martin, 74-15-89; C. Smith, 75-10-85; Magill, 79-8-87; Vickery, 89-10-99; Masters, 90-5-95; Craig, 91-5-96; Gilbert, 67-25-92; J. B. Corrington, 78-20-98; Greenleaf, 71-8-79. In the twenty-five bird events Yagle of Arenzville hit 19, Craig 18, P. Corrington 19, Morris 16, Meany 15, Brockhouse 17, Doberbert 16 and Geanatos 36 out of 75. The scores in the doubles were: Magill 6-10, Masters 6-10; Robertson 5-10; Smith 4-10, Greenleaf 4-10, Brockhouse 4-10, Obermeyer 5-10, Gilbert, 4-10, and Vickery 5-10.

Mrs. T. T. Long and son Thomas have returned to their home in Springfield after spending a few days with Mrs. Frank Govela on Caldwell street.

Young Man:

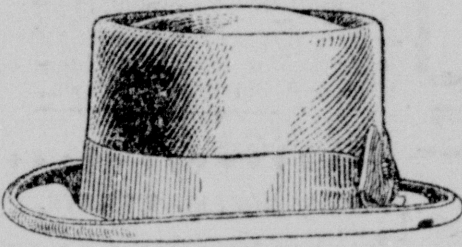

YOU who represent that great throng of good dressers—we're anxious to have your verdict. We're ready with the springtime styles of Society Brand Clothes. We want you to see them because they're *different*.

This message is just as full of meaning to the man who is wedded to the custom tailoring idea as to those who have long ago seen the light—and realized that ready clothes like Society Brand are leaving the tailor far behind in the style procession.

Some men have been patronizing tailors so long that it has become a confirmed habit.

If you are one of them we would like to have you come in, not so much to sell you as to give you the surprise of your life.

We want you to slip into a garment or two of Society Brand Clothes and see what the mirrors say. Those mirrors of ours have a way of carrying conviction more forcibly than any human.

You should come here for your new Spring Hat, where there is no apology for not having the style you ask for. Any New Style Spring Hat you want to see is here. Your size all colors, \$1.00 to \$5.00.
